STRESS SUPPORT GROUP The Historical Society of the Upper Mojave Desert (HSUMD) has become a community center of activity that, among other things, recognizes and supports Veterans who have served our country. The ways HSUMD supports veterans are many and varied. They include the establishment of a Veterans Memorial Building that displays and honors the stories of our local Veterans and their service. They include hosting a monthly Veterans Breakfast for all Veterans and their spouses at the Historic USO Building. And HSUMD hosts a regular gathering of a Stress Support Group on Tuesday evening, starting at 1800 hours at the Veterans Memorial Building located at 230 W. Ridgecrest Blvd, the Stress Support Group meets under the leadership of Dr. Jiselle Esparza. Exposure to traumatic combat and operational experiences affects service members and Veterans spiritually, psychologically, biologically, and socially. A Veteran with a good job, good social supports, and a healthy leisure routine may have an easier readjustment to civilian life. If you or a loved one thinks that they could benefit from coming to a meeting of this Support Group, please call for schedule & details. John Abbott at 1-619-808-2223. TFN

DR. ERIC HASELTINE, PHD, is returning to his hometown to be next featured speaker in the China Lake Museum Lecture Series to be held at the Marriott Springhill Suites conference room on Monday, June 10 at 7pm. His new book "The Spy in Moscow Station" tells the thrilling, true story of the race to find a leak in the United States Embassy in Moscow before more American assets are rounded up and killed. General Michael V. Hayden (Retired), former Director of NSA & CIA provides the forward in the book. The book tells of a time when music like today Russian spycraft had proven itself far beyond the best technology the U.S. had to offer. The perils of American arrogance mixed with bureaucratic infighting left the country unspeakably vulnerable to ultra-sophisticated Russian electronic surveillance and espionage. Eric was born and raised at China Lake, graduated from Burroughs High in 1969, received his BA from UC Berkeley, and PhD in Neuroscience from Indiana University. He was Executive Vice President of Disney Imagineering, until General Hayden tapped him to be Director of Research at NSA in response to 911 and later as Associate Director of National Intelligence in charge of Science and Technology for the U.S. intelligence community. He has given several popular TED talks on the future of science and is an inventor with more than seventy patents and pending patents. He lives in California with his wife, Dr. Chris Gilbert. Dr. Haseltine will have books available for signing after his talk. His earlier book "Long Fuse, Big Bang" will also be available at the event. Long Fuse, Big Bang lays out a strategy to achieve long term success through daily victories and is available at the China Lake Museum Gift Shop.
