Cold Weather Precautions:

Care for your Pet's Feet.

Bring a towel on long walks to clean off stinging, irritated paws. After each walk, wash and dry your pet's feet and stomach to remove ice, salt and chemicals- and check for cracks in paw pads or redness between toes. Massage petroleum jelly or other paw protectants into paw pads before going outside can help protect their feet, as well as booties.

WHICH IS RISKIER?

Rock climbing is risky.

Not having life insurance to take care of your loved ones is riskier.

It means they would suffer financially if something happened to you. And that's a risk you don't have to take.

Life insurance is more affordable than most people think. The first step to getting coverage is easy.
